Fuel Filter for GEnx™ Engine

FUEL FILTERS THAT KEEP YOU RUNNING SMOOTHLY.

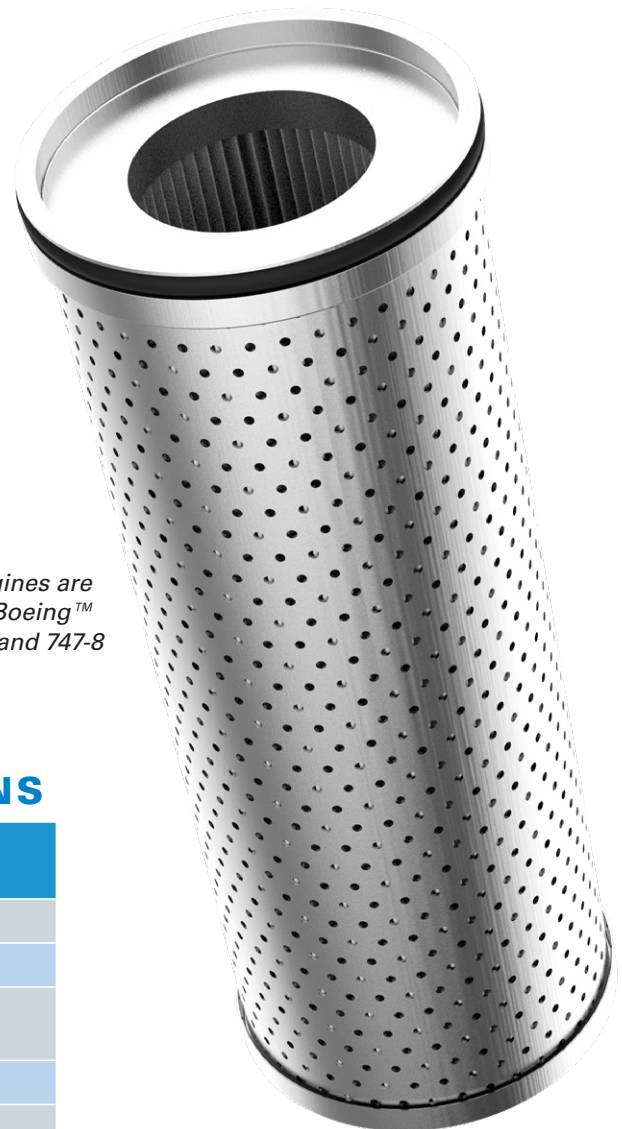

Donaldson uses top quality components, which allows us to offer airlines reliable, cost effective fuel filters.

Donaldson fuel filters help prevent premature wear by filtering the fuel before it reaches your engine. The same filtration technology and expertise you've come to expect from Donaldson air filters for over 100 years is in every liquid filter we design and manufacture. Donaldson customers find our products meet or exceed their application requirements.

What you get with Donaldson fuel filters for GENx™ engines:

- Experience from a company that designs OEM approved products
- Developed in collaboration with a primary GENx operator
- FAA PMA approval to validate design and performance
- A cost-competitive option that helps support operational efficiency

GENx engines are used on Boeing™ 787 and 747-8

GENx ENGINE FUEL FILTER SOLUTIONS

Donaldson Part Number	AV0005401
Replaces OE PN	1326-8015
Estimated Change Interval	On Condition
Dimensions	3.5" OD x 9.0" L 90mm OD x 230mm L
Approvals	FAA PMA Approved
Engine	1A, 1B

GENx™ is a registered trademark of General Electric.
